Safety Preparations						
Personal Safety		Space Preparation	Equipment Cleaning and Draining			
□Protect against	by	□Isolate	□Steam			
□Fresh air blower	□Rubber boots	□Lockout/tagout	□Fill and drain			
□Fresh air mask	□Ear protection	□Disconnect and blank	☐Remove deposits			
□Escape air pack	□Other barrier clothing	□Post hot work signs & permit	□Visual inspection			
□Dust respirator	□Evacuation instructions	□Rope off work area	□Neutralize contents			
□Coveralls	☐Two escape routes	□Erect barricade				
☐Safety shower	☐Life-line harness	□Block roadway	Fire Safety			
□Acid suit	□Life-line belt/wristlets	☐Protect against external hazards	□Specify fire watch in "Remarks"			
□Acid hood	□Chemically resistant	☐ Ventilation	□Area alarm no			
	lifeline					
□Face shield	☐Fire alarm box	Electrical Precautions	☐Fire hose laid out			
□Chemical goggles	□Escape ladders	□Lock out circuits	□Water hose running			
□Rubber gloves	☐Mechanical extraction device	□Pull fuses	□Keep area wet			
Communications:	Telephone	□Spark containers and shields	□Cover sewer openings			
□Location/type of add alternate)	itional assistance (third	□Welding-arc protection	□CO ₂ extinguisher			
Remarks		☐Ground fault interruption	□Dry powder extinguisher			
		□Proper grounding	□Other			
			□Only battery, pneumatic or hand operated tools in use			
Gas Tests						
☐ Initial Monitoring ☐ Continuous monitoring ☐ Periodic monitoring Monitoring frequency						
Acceptable atmospheric conditions < 10% LEL between 19.5 and 23.5 % < 20 ppm < 0.5%						
Time / Location	n Explosibility	Oxygen	CO
